## Please note:

- Schools may assemble students earlier than these exam start times to complete identifying information on answer sheets. Your AP Coordinator is responsible for letting you know exactly when and where to report for your exams.
- Schools in Alaska must begin the morning exam administration between 7 and 8 a.m. local time, and the afternoon exam administration between 11 a.m. and 12 noon local time. The AP Physics C: Electricity and Magnetism Exam must begin between 1 and 2 p.m. in Alaska.
- Early testing and testing at times other than those published by the College Board are not permitted under any circumstances.
- If you wish to take exams that are scheduled for the same time, ask your AP Coordinator for information about taking one of the exams during the late-testing period. You may not take both Calculus AB and Calculus BC in one year.
- For AP Studio Art, May 7, 2010, is the last day for your AP Coordinator to submit your digital portfolio sections to the AP Program, but you will need to complete your digital portfolio sections and submit them to your teacher well in advance of May 7. (See page 11 for more information.) If you will be submitting a 2-D Design or Drawing portfolio, you will also meet with your AP teacher and AP Coordinator on or before May 7 to assemble the Quality section of your portfolio (the actual artworks that are mailed to the AP Program).
